In the last catalog, I mentioned we had surprises in store for Right Stuf's 20th Anniversary Celebration...

The first volume of *The Third: The Girl With the Blue Eye*, released in cooperation with Kadokawa Pictures USA, made its debut on the anniversary date of Right Stuf's founding, July 31. We're very proud of this series, and it's great to know quite a few of you love it as much as I do!

At Anime Expo, we announced our licenses for *Lost Universe* and for both seasons of *Emma: A Victorian Romance*. It's not an exaggeration to say that North American fans haven't seen an anime like *Emma*, and it is indeed a privilege to introduce this very distinctive series to a new audience in a very special way.

Also at AX, we announced the re-branding of our production division and the creation of its namesake label, Nozomi Entertainment. The Japanese word that inspired this name is a reminder of our focus on "what fans want." In addition to making it clear that we are both an "anime superstore" and an "anime publisher," we are reaffirming our commitment to you - to continue to serve anime fans the way we - as fans, ourselves - want to be served!

Best of all, there's more to come (the anniversary year lasts until next July, after all!) Check out RightStuf.com, our newsletters, and our Anime Today podcast (www.animetoday.com) for all the latest. And even as some things change, others stay the same: We're always open to your thoughts about how we can do things better, or any other suggestions you may have, so please feel free to email me directly and/or stop by our forums. Your voice does get heard!

Have a great fall and a wonderful holiday season!

Best regards,

Shawne Kleckner

20 Years of Right Stuf

• PART 2 •

Welcome to part 2 of the history of The Right Stuf International! When last we left off, Right Stuf had just turned 10 and the anime industry was on the verge of breaking into something almost resembling mainstream acceptance. Under CEO Shawne Kleckner's careful watch, *The Irresponsible Captain Tylor* had just begun release, Right Stuf was slowly devouring the office space around it, and the catalog had climbed to over 2,200 individual listings in a single issue. Life was good for both anime fans and their suppliers.

Anime Returns to Broadcast TV!

In 1998, 35 years after the chant of "Go, go, go Astro Boy" first sang from American TVs, anime finally returned to US mainstream television. That year, not one but *three* anime phenomenons were launched. In the summer, Cartoon Network gave both *Sailor Moon* and *Dragonball Z* prominent afternoon slots in its Toonami programming block. Then in September, a little show named *Pokémon* debuted on Kids' WB. Ask any fan under the age of 25 what their first anime was and odds are good they'll name one of these three. Heck, the craze even caught on at Right Stuf: In '99 we numbered each page of the catalog with its appropriate Pokémon. Anime had arrived again, and this time it would need a much bigger spotlight.

The success of these three shows led to an unprecedented anime licensing boom in the United States, and titles like *Gundam Wing*, *Digimon*, *Hamtaro*, *Yu-Gi-Oh*, and many others soon followed. What did that mean for Right Stuf? A rapid - and rabid - expansion of product listings and a sudden company growth spurt. So you'll understand if I have a soft spot for electric yellow rodents, over-powered aliens, and odango pigtails.

Divine Diversions

In a slight break from the usual, in the fall of 2001 the Right Stuf production staff was hard at work on something totally unrelated to anime: the 25th Anniversary edition of the 1979 TSR board game "Divine Right." Shawne fondly remembered the game from childhood and wanted to make it available again, so he approached the publishers to re-release the game. Glenn Rahman, the game's original author, provided some updates to the rules and even a newly illustrated world map to play on. The game proved just as popular as it had in the '70s, and the entire run sold out in only a year.

At about the same time, ADV Films and Right Stuf joined forces to capitalize on interest in anime music and created the new music label "Animetrax." The venture proved a success when the label was able to break into major mainstream music/video retailer Suncoast. It was the first time anime music had ever found its way onto major retailer shelves. With the launch of soundtracks like *Macross*, *Akira*, *Taylor*, *Slayers*, *Lost Universe*, and *Boogiepop Phantom* paving the way, soon CDs from other industry players, like TOFU Records and Geneon, would be joining them in the stores.

DVDs?!

If I could name just one invention that propelled the anime industry to where it is today, I'd probably pick the internet, but DVDs would be a very, very close second. First introduced commercially to the U.S. in summer 1997, DVDs not only made rewinding obsolete, but they could contain multiple language and subtitle tracks plus extras and allowed skipping to any part of the disc in mere seconds.

Of course, the DVD conversion didn't happen overnight. It would take tech-savvy early adopters to get the ball rolling, and a key demographic in that category was anime fans, long known for their interest in using new technology. Anime was a big part of the early market, and had its own major category devoted to it. In fact, at one point, 9% of all DVDs released were anime!

Right Stuf's first entry into the DVD field would come in early 2001 with *The Irresponsible Captain Tylor*. Shawne was hesitant to commit to the new format too soon due to the immense production costs, and so a special bonus was born. The first 750 fans to pre-order *Tylor* on DVD would have their names recorded onto the discs as a special thanks. We released all four individual DVDs, plus the box set, on March 27, 2001.

Later that year, we followed the *Tylor* release with a range of other DVDs including *Starship Girl Yamamoto Yohko*, *Assemble Insert*, and *Boogiepop Phantom*. *Boogiepop* was our first DVD series to have English 5.1 audio. It was also the last of our releases to receive a VHS edition. Like the rest of the industry, Right Stuf would be DVD-only from here on.

The Web Grows By Leaps and Bounds

But while our soundtracks were breaking new ground in the so-called "brick and mortar" stores, our website and online store were changing, too. For many years, we had worked with a third-party vendor, managed by Richard Harms, to develop our website. In July 2001, we moved all of our web hosting in-house, and at the same time hired Richard as our Chief Technology Officer.

Once things were handled internally, we started to focus on improving the overall customer experience. It wasn't long before customers were able to review order status online and shipping notices were being zipped out via email.

However, while Richard could make significant improvements, some features we wanted to add would only come with a complete revamp of the entire system from the software used by accounting to the system used by customer service. Plans were laid for these future developments and additional staff was hired to handle the ever-expanding store.

Coupon Code: Savings!

Of course, no history of Right Stuf would be complete without mentioning the evolution of our many, many ways to save money - so you can spend it on even more anime, right?

In 1998, we introduced our infamous "Got Anime" purchasing club. For just \$12 a year, you could (and still can) save an additional 10% off of our already-discounted prices on VHS tapes. Since 2002, that little \$12 membership has grown to encompass more and more types of products and now you can get discounts on just about everything that isn't already on closeout or a special, but the membership price has always held steady through the years.

By 2000, Shawne's list of bargains and deals was getting larger and larger. In response, the Bargain Bin was introduced as a special category of items, allowing for easy browsing of deals. An unqualified success, it was followed in 2002 by the Closeout Bin, for those items that had been discontinued by their manufacturers.

Richard added the ability to use coupons to the site in 2002, greatly increasing the number of different deals and discounts we could offer. Coupons could (and of course still can) be used in combination with a Got Anime membership, applied to items that met different requirements (get \$5 off any Right Stuf title, for example), allowed "one time only" offers that would have been impossible previously, and so on.

Coupons were also the key to the debut of our infamous studio sales, allowing for sweeping savings across an entire studio's stock. And as an extra bonus, customers using the print catalog as a guide before hopping online could still apply their coupons from the back. (Hint, hint.)

Also in 2002 (it was a busy year), we made economy shipping free for all domestic orders over \$99, and in 2005 lowered the threshold to the current \$49. Since then, we've expanded the program to include free Canadian shipping at \$150. The Canadian pricing was actually an "experiment" but one we've never felt the need to modify. Another successful experiment was Shawne's Deal of the Day, launched in summer 2003.

Far Too Much Effort on the Production Team's Part

Meanwhile, the production team was hard at work putting together the most complex anime DVDs ever produced. No, I'm not exaggerating. In July 2002, our release of *His and Her Circumstances* made history when it was announced that it was among the most complicated DVDs in the world. You see, while in 2002 a normal DVD contained about 1,000 assets (menus, subtitles, audio tracks, video tracks, etc.), the first volume of *His and Her Circumstances* contained **79,713**. And while most individual DVDs of the time had somewhere between 5,000 and 30,000 lines of code, volume 1 had **347,006**.

Not content to rest on our laurels, this extraordinary dedication to detail continued with the introduction of our Ultra Edition box set line in 2003. Designed specifically for collectors, these sets were piled with extras (such as Japanese video segments never released in the US), given books featuring historical insights from the creators, and wrapped up in specialty boxes. The first Ultra set to be released was for *Boogiepop Phantom*, followed in 2005 by the TV and OVA sets for *Taylor*, and later with multiple sets for *Astro Boy* and *Kimba*.

Overhauling the Catalog

Catalog-wise, one of our biggest changes in years came in 2001. With more young fans becoming interested in anime (thanks largely to the aforementioned *Pokémon*), we decided it was time to make the catalog more "family friendly." All products rated 18 and up were moved from the main listings to a special sealed section which could be easily ripped out. We received so much positive feedback about the change that it has been a hallmark of our catalog ever since. But even this change was only a drop in the bucket compared to the overhaul that was to come.

In late 2002, Kris Kleckner began to move from updating the store's online content towards heading the Production Department. Her first hurdle was to revamp the company's massively growing print catalog. Still getting her bearings in 2002, only a few changes, such as the addition of age ratings, were made as she learned the ins and outs of compiling the entire anime industry into a single volume. The experience gave her a firm idea of which things she wanted to alter, and Kris and her team were ready to tackle the next edition.

In fall 2003, the catalog changed from an annual black-and-white horizontal book to the bi-annual full-color vertical version in your hands today. The product listings, which had been growing more and more unwieldy each year (we were up to 256 pages in 2002 - exactly double the current 128), were slashed from "everything anime under the sun" to "everything anime under the sun released since the last catalog, plus new stuff and best sellers." Customers looking for older titles were directed to our website, now a driving force of Right Stuf's sales.

Staff picks were introduced, highlighting some of the production team's favorite titles. Contest coupons, which had been acting as sort of mail-in raffle tickets, disappeared to make way for more of the traditional-style (and popular) money-off coupons. The contests would later reappear as online exclusives and eventually find a permanent home on our *Anime Today* podcast.

But the biggest change to the catalog came with the expansion of the American manga market. What was once a listing of a few books in the back with other miscellaneous merchandise suddenly ballooned into its own 15-page section. Styled similarly to the video listings, the manga section included descriptions, pictures, and even staff picks. Today, thanks to the manga boom, graphic novels have actually overtaken DVDs to become the biggest part of the catalog.

Mining for Diamonds

Other changes were afoot in the licensing division. While classic anime had given Right Stuf its start, it was time to move on to the slightly newer future. Acquisitions turned its focus to discovering "hidden gems," and the next big discovery came with the shonen-ai (boys-love) series *Gravitation*.

Although a few OVAs (*FAKE*, *Kizuna*) had already made their way to American shores, most US companies were still wary as to whether shonen-ai and yaoi would sell. The huge success of the *Gravitation* TV series slammed open the door and shonen-ai and yaoi products flooded into the market. The popularity of *Gravitation* eventually spawned the creation of Right Stuf's first plush toys (versions of Kumagoro and Ryuichi), and was the impetus for our first merchandise deal with Great Eastern.

Of course, the tech team wasn't the only division taking advantage of the new location. The production division was also staying busy, and *Shingu: Secret of the Stellar Wars*, *Piano: The Melody of a Young Girl's Heart*, the *Gravitation* OVA, *Boys Be*, and *Ninja Nonsense* all joined the Right Stuf stable between 2005 and 2006. With the larger facilities, the company pulled as much of the production process – and quality control – as possible internally. The very first disc to be completed entirely in-house was *Boys Be* volume 1, released February 2006.

Bringing so much of the production process under direct control meant that we could work faster and more economically. When we rescued fan-favorite *Super Gals* season 2 from languishing in licensing limbo, we were able to turn the entire 26-episode season around in less than eight months. We were also finally able to move forward with the release of *To Heart*, which had been proving cost prohibitive to release due to the bad condition of its source material. After months of intense clean up, *To Heart* was finally released over the course of Spring 2007.

Our 20th Anniversary!

Now, 20 years since Shawne first began his quest for those original *Astro Boy* masters, Right Stuf is more successful than ever and we're celebrating in style.

Most notable this year has been the launch of Nozomi Entertainment. After years of blurring lines between Right Stuf the producer and Right Stuf the anime store, the production division has gained its own identity. The very first title to be released under the Nozomi label was this summer's *The Third: The Girl with the Blue Eye*, an action-adventure show with a sci-fi bent. Not only does *The Third* mark Nozomi's first release, but it's also our first joint venture with Kadokawa Pictures USA, widely known for its other joint US releases *Full Metal Panic: The Second Raid* and *The Melancholy of Haruhi Suzumiya*.

We also completely overhauled the Right Stuf website, adding improved functionality and some exciting features to make online shopping even more convenient. The tech team even implemented a new redesign. You'll notice a prominent part of that redesign has been our new logo, which adds a bit of excitement. The new addition of the exclamation point stems from the Japanese red sun, and you may have noticed the new red color popping up on our order forms and packaging.

And best of all, we had a giant vanilla and chocolate cake on July 31, Right Stuf's official 20th birthday. Trust me when I say it was delicious.

The Bright and Shiny Future

What's next for Right Stuf? Nozomi already has a number of projects in the wings for the next year, including the conclusion of *The Third: The Girl with the Blue Eye*, a premium box set for *Ninja Nonsense*, the resurrection of the space comedy *Lost Universe* TV series, and two box sets of the upstairs-downstairs romantic tale *Emma: A Victorian Romance*.

We're already filling up our new building (believe it or not, it was a surprise), but being based in Iowa does have its advantages – we have more than 3 acres out back to expand on. While the catalog seems to have stabilized at around 128 pages, the anime and manga industry continues to grow and the catalog may just find itself getting another revamp. Who knows? The only thing for certain is that our devotion and service to our customers will continue to be our number one priority.

Here's to another 20 great years!

-Lisa Marie

Recent Advances

From there, Right Stuf's history starts to move more and more from "back then" to "just yesterday," and if you've been reading our newsletter or following our press releases, you're likely to remember some of the following.

While we've had tylor.com for ages, it had the distinction of being our only series-specific website until 2005, when Nick Tann joined the company. Brought in specifically as a web savvy graphic designer, his first project was to create a site for *Shingu: Secret of the Stellar Wars*. The result was simultaneously informative and entertaining and the response from fans was overwhelmingly positive. Ever since then he's been hard at work creating series sites for all of our titles.

However, the arrival of Nick and several other new employees emphasized a growing problem: we were running out of space. By the summer of 2005, we had devoured the last of the office space around us and had even built a loft in the area above, and the building *still* wasn't big enough. It was time to move. After much searching, Shawne finally located the perfect place to relocate to. The entire staff worked overtime to move everything while minimizing any downtime for the website, customer service and fulfillment.

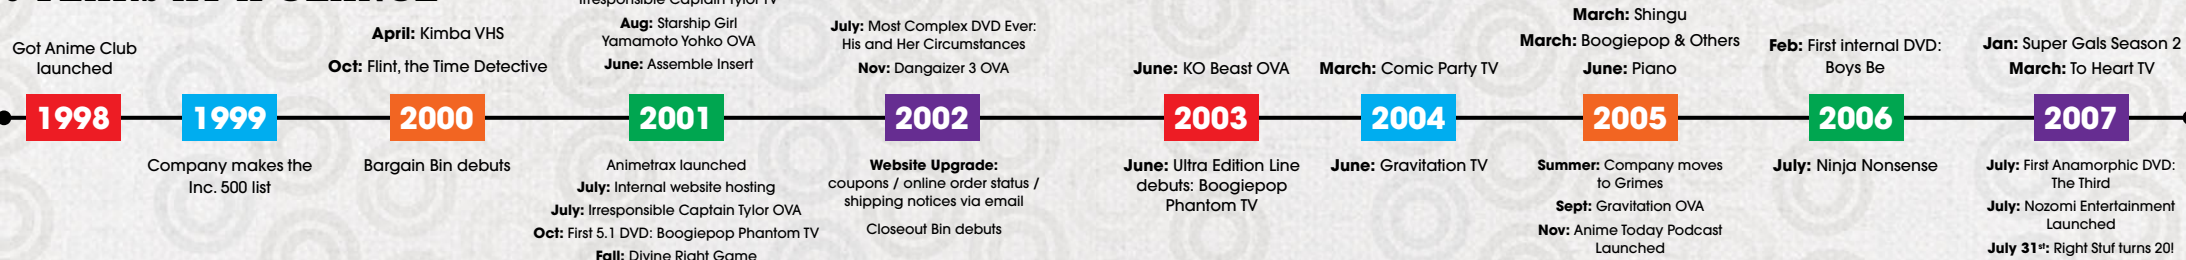

Move completed and new offices decorated, our tech team went right back to expanding our online presence, and in October 2005 our Got Anime site was officially relaunched. Previously just a place for customers to sign up for the program, existing Got Anime members could now find details on each month's member-only special offers and coupons as well as check out a sortable list of pre-orders for the upcoming months.

The month after that marked the debut of our podcast, *Anime Today*, the very first commercial podcast covering the anime / manga industry. Through the years the podcast has featured exclusive interviews with industry veterans, voice actors, and even company presidents, all talking about everything from pricing controversies to new product launches. It also has regular commentaries from our production team, contests every other Friday, and has made every single member of the podcast crew blush at least once upon hearing the end-of-episode bloopers.

ANIME TODAY

10 YEARS AT A GLANCE

THE THIRD

THE GIRL WITH THE BLUE EYE

After Shawne returned from his whirlwind trip to New York Comic Con 2007 where he announced our license of *The Third: The Girl with the Blue Eye*, the rest of the department and I eagerly took home copies to find out what it was we'd be working with for the next year. My personal conclusion? Damn, I want a tank like that. I've seen girls-with-guns/mechs/tanks/etc anime before, but this is the first time since the *Patlabor* movie where I really felt like the concept really worked on a level above fanservice. Plus, Honoka is just the kind of heroine I'd like to see more of in anime today. And...

But wait, I'm getting ahead of myself. For those who aren't already familiar with *The Third*, the story revolves around 17-year-old Honoka, your typical jack-of-all-trades girl who'll take on any job short of killing someone. Honoka travels the desert doing odd jobs with Bogie, the coolest AI-controlled tank this side of Antarctica. It's as she's out traveling one night that she first meets Iks, a tall young blond man about to get himself killed by a pack of extremely territorial giant bugs.

That meeting triggers a series of events that eventually build up from simple adventures to an intense epic where the fate of the entire world is at stake. All the while, Honoka is kept under surveillance by a mysterious group called "The Third," which seems especially interested in her journeys... Okay, so maybe Honoka's not so typical after all. But work with me here.

The Third has been a special release for Right Stuf / Nozomi Entertainment in more ways than one. Most notably, *The Third* is our first collaboration with Japanese distributor Kadokawa Pictures USA. While we're handling the production, promotion and distribution side of things, Kadokawa works with original production studio Xebec to get us the materials that we need. In addition, everything we produce is double-checked by Kadokawa's team to ensure accuracy and make sure we're bringing US fans the best possible release we can.

Another result of this partnership is that *The Third* has had one of our fastest production turnarounds ever. The decision was made to release the first volume of the series in July, as quickly after the Japanese R2 release as possible without actually being a simultaneous release.

One of the interesting consequences has been a major departure from our usual casting process. Typically, the process goes something like this: list out all of the characters you need voices for, send the list off to your director, get back auditions, perhaps ask for a few follow-up auditions to see if a promising new actor can handle some particularly intense scenes, and then make your selections. Instead, our production team and directors skipped directly to: "You know who would be totally awesome for this part? So-and-so! Let's see if they're available!" Putting together the voice cast was a lot like casting the latest Hollywood blockbuster. We needed voice acting veterans, and we needed them fast. Two of the first voices we cast that way were Angora Deb as Millie, the mechanic's young daughter; and Carol Jacobanis as Paife, a woman with a cool demeanor and deadly aim.

Of course, it's never quite *that* easy, and there are always roles which prove tricky to fill. For characters where our staff didn't have anyone immediately in mind, our directors on both the east coast and west coast were consulted for suggestions, often taking us outside of our usual pool of actors. Sometimes, we were directed to actors' online web portfolios showcasing their work. James Lyon's impressed us so much he was immediately cast as Bogie.

One of the biggest challenges turned out to be casting Iks when the actor we initially wanted to play his role turned out to be unavailable due to scheduling. Now, in Japanese, Iks has sort of a light, androgynous tone, typical of anime bishounen. But while that's a common enough vocal trope in Japan, finding an American equivalent often feels high on impossible - auditions tend to turn up voices that are either too masculinely gruff or too femininely high pitched. Fortunately, after listening to numerous possibilities, one of our directors pointed us to Steve Cannon, and we had our Iks.

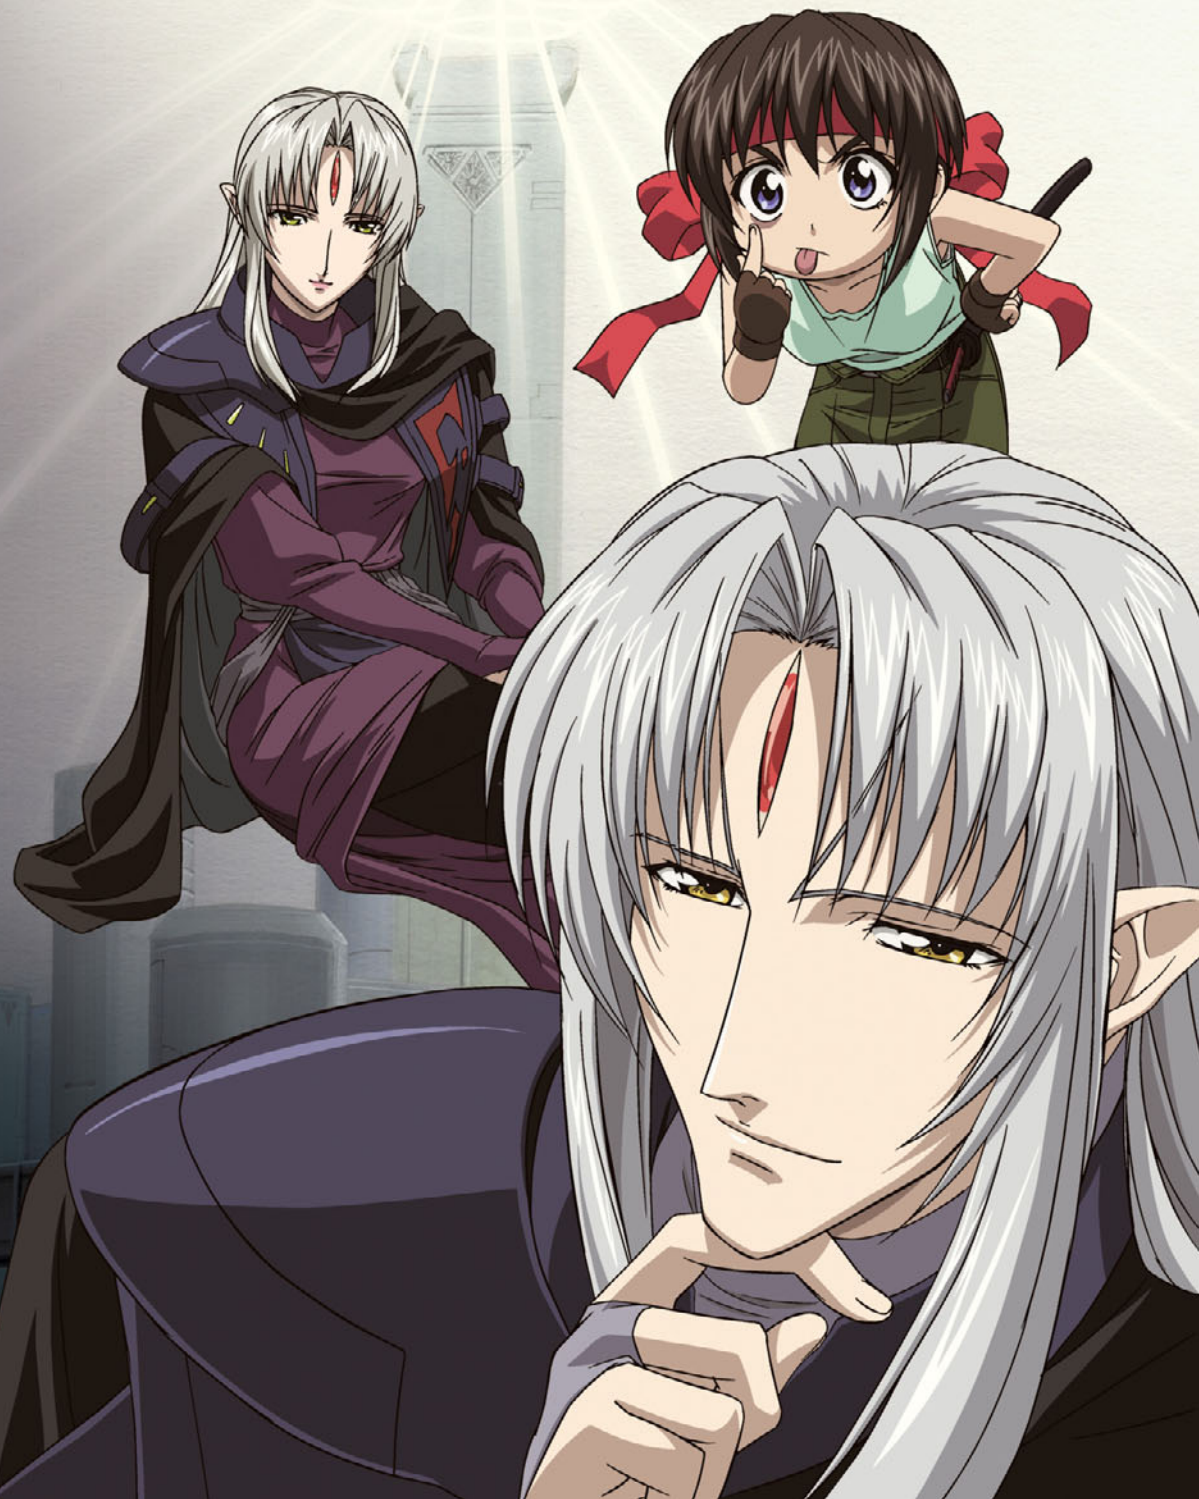

Of course, there was one character the production staff felt it important to hold auditions for regardless: Honoka. With a majority of the spoken lines and the main focus of the plot on her shoulders, Honoka carries the show. Her voice actress would have to have a playful side, a serious side, and be able to pull off all of the yelling and grunting of the action sequences. Anna Morrow, who just made her voice acting debut as Rio Hinayama in *To Heart* earlier this year, nailed the part.

Casting wasn't the only part of *The Third* proving a challenge. The show represents our first return to 5.1 surround sound since *Boogiepop Phantom*, and our first anamorphic widescreen release ever. The production department worked overtime to make sure the sound and video would be as absolutely pristine as possible. On top of that, we piled on as many extras as we could, including interviews with the Japanese staff, music videos, and art galleries. The design team, just as committed as everyone else to the quality of the release, put together beautiful double-sided covers that emulated the sci-fi feel of the show, and in-depth printed booklets.

Our efforts paid off just five months after that February announcement, when we were able to showcase the first episode in all its audio and visual glory at Anime Expo, and the first DVD reached store shelves just a few weeks later. It was our first disc released under the new Nozomi Entertainment label, and we could hardly have asked for a better first release.

With so much work to do and so little time, producing *The Third* has been both a long and a short journey, much like Honoka's own adventures. By the time you're reading this, the series artbox will have just arrived at our warehouse - available with the *third* volume, naturally enough - and you'll see the sixth and final DVD next spring. Make sure you stick around for the grand finale - like I mentioned, it's pretty epic. And that goes for both the show *and* the making of.

- Nozomi Entertainment Production Team

ITEM LISTINGS

Ratings System

To benefit our customers, we have implemented a rating system for many of our products based on our staff's knowledge of each title's content, as well as input from the various anime suppliers.

N/R

This title has not been rated.

ALL

Generally acceptable for children. No nudity. Possible mild violence.

12+ 13+

May contain violence, brief nudity, and/or mild language. May suggest sexual situations, but no such situations are shown. Parental discretion advised.

15+, 16+, 17+

Strong violence and strong language. Prevalent nudity may be contained within the picture. Mild sexual situations may be shown.

18+

Extreme violence, explicit nudity, and/or extreme language may be contained in the picture. May contain sexually explicit material. Absolutely not for anyone under 18 years of age.

Please note: Ratings used within our system are oftentimes provided by the manufacturer. Because of the differences in ratings used by these companies, we have combined their systems with the descriptions of the ratings listed above. Right Stuf does not set ratings (except for its own products) and is not responsible for errors, omissions, or inaccurate ratings. These ratings are guidelines only and are subject to change.

Running Time / Video Length

Next to the age rating of each item, you will see the approximate running time listed for each video. Depending on the manufacturer, running times may or may not include extra bonus features such as previews. A N/A indicates that the running time is not available.

Edited and Uncut

Although many fans screech in horror at the very thought of altering the original Japanese version of a show, for a series to make it to American TV (or even into some retail stores) it must often be edited. This means that scenes containing nudity, excessive violence, blood, and foul language are altered or even totally removed. Anime purists may want the original in all its glory, but parents of young TV viewers do not. Manufacturers recognized this and often release both the Edited (TV Version) and the Uncut (Original Version) of the show.

Closed Captioning (CC)

While most DVDs have subtitling, not all have Closed Captioning (CC). For those titles which we know have this feature, we have listed CC in the line containing the item's part number.

DUB ONLY? SUB ONLY?

Although DVDs allow for the possibility of dual languages, it is not always possible to license a title for dual language release in the States. So, you end up with manufacturers

releasing Subtitle Only (SUB ONLY) or English Dubbed Only (DUB ONLY) DVDs. Subtitled DVDs display the dialogue on the bottom of the screen while the actual voices are still in Japanese. Dubbed means the music (probably) is intact, but the voices have been redone in English. In our online system, you will note that subtitled is represented by (S) and dubbed is represented by (D). You might also see (Hyb), which means that both the subtitled and dubbed versions are on the same DVD.

Release Dates

If an item has not yet been released at the time of this catalog's printing, you may see a release date listed for the item. However, manufacturers can (and often do) change these release dates due to production delays. If you are ordering an item with a release date and are concerned whether this item is on schedule, please feel free to check the item's release date through its online listing, contact Customer Service at 1-800-338-6827, or even email Customer Service at info@rightstuf.com.

Mosaic

The digital "mosaic" effect is sometimes placed over the relevant bits during a particularly adult sequence prior to the title being exported from Japan. When we are aware that a particular volume or item has this effect, we'll mark it as Mosaic in the volume listing.

OVA (OAV)?

This means Original Video Animation. In normal terms, this means a direct-to-video release.

Essential Anime / Anime Legends / Signature Series Editions

On certain DVDs, you will see them marked as "Essential Anime," "Anime Legends," or "Signature Series." These are re-releases of the original DVDs at lower prices. However, these new versions may or may not include all of the features that were found on the original release. If you are concerned that the DVD you are considering buying might not contain the features that you're looking for, please feel free to contact Customer Service or check the item's listing through our online store.

GENERAL

Why do you charge for your catalog?

Unfortunately, paper does cost money. In order to keep producing a printed catalog, this means that we have to charge a small fee for it (but don't you think it's worth it?). However, first-time customers can get their money right back by using the \$4 off coupon on page 107! (Not to mention the tons of other great coupons back there.)

Will I get your next catalog?

If you've ordered something from us in the last 6 months, you will automatically receive the new catalog when it is shipped. If not, you may find that you'll stop receiving catalogs (and you will have to send us the current catalog fee to reactivate).

When does your next catalog come out?

Why, every spring and fall!

Where are the Adult products?

Since our catalog is delivered to anime fans of all ages, we've taken special precautions to ensure that the younger fans are not exposed to products that contain explicit violence, adult situations, or sexual content (18+). Products of this nature have been placed in a special section just for adults. Please feel free to remove this section - it really won't hurt our feelings.

Please be aware that this does not mean that all items in the regular sections are intended for young children. To help parents, we've taken special care to make sure that products are marked with age ratings.

What's this "Got Anime" thing?

An easy way to get an additional discount on your favorite anime items. For a small yearly membership fee you get additional discounts, newsletters, and members only specials! Read more about the Got Anime Purchasing Club on page 12. Please note that international members of the club no longer receive mailings, due to postage cost, but newsletters are available online.

Memberships are non-transferable, and will remain with the billing address of your account. If you move, please make sure to contact us with your updated information so that we can update your membership information.

Why don't you carry that many imports? Limited availability of imports and lack of timely distribution of such overseas items make it difficult to provide quality imports on a timely basis. We are continuously scouring the market to find a stable way to bring imports to our customers and hope to do so in the future.

Why don't you have <Title Here> Audio Soundtrack CD from Japan? Um... I know I'm getting bad at geography, but I'm pretty sure that's an import - see above question regarding imports. You also might want to check our Soundtracks section because a number of titles are now being released domestically.

By Phone:

Domestic (US): 1-800-338-6827
International: (515) 986-1028

Please don't email your order, as it's very insecure and someone could steal your credit card number.

Can I get a new order form?

You can give us the information on the form or on any scrap of paper. As long as we can read it, you're fine (hieroglyphics just wasn't our specialty in any life). You can also print one from our online pdf at: www.rightstuf.com/orderform

How can I check on my order?

If you placed your order through our online store (www.rightstuf.com) you can check your order status when you log in. Otherwise, simply call our friendly Customer Service people at 1-800-338-6827 or email us at info@rightstuf.com

How long is a typical item "out of stock" for?

With a few exceptions, DVD delays can be measured in days. There are some freak delays, but 2-4 weeks is usually a safe figure. However, please keep in mind that some items are directly imported from Japan, and may be in short supply even there, and should the vendor be out of stock at the time of our re-supply order with them, it may be a bit longer. We keep thousands of items in stock, and our computer system automatically adjusts stock levels based on demand.

Can I use my coupons for an online order?

Yes, you can. Simply use the Coupon Code that is on your coupon when you place your online order. You can only use one coupon per order and only one catalog coupon per customer.

Can I order online Daily Deals or Special Pre-Order Discounted Items through the mail or over the phone?

Sorry, but these special offers are only available through our online store at www.rightstuf.com and if you check in often enough, you might find some amazing deals online!

How many coupons can I use?

You can only use one coupon per order and some coupons can only be used through our online store. Please see coupon details for specific restrictions.

Do I need to add sales tax?

Only if you happen to live in Iowa.

If I move, should I inform you?

Certainly a good idea (Right Stuf would be the FIRST notice I'd send if I were you), especially if you want to keep getting stuff from us. Just drop us a quick note, giving us your old address and your new address, so that we can update our records.

MAIL-IN ORDERS

I want to use your online store and I wanted to order, but I don't have a credit card! Help! Should you prefer to flip through the online store to select items, you can actually use it to place an order by mail! Simply select all of the items you want and place them

in your cart. When you proceed to checkout, make sure to choose the "faxed or mailed order" option. This will generate a printed form with everything already added up for you (no more calculators!). Just print this form and mail it in with your payment. Although you can use the online store to generate your order, nothing will be recorded by our system so make sure that you don't lose your form or you'll have to re-enter everything all over again!

Please note that online coupons are not valid on mail-in orders.

I saw a coupon on the internet, can I use it?

Some coupons and short-term deals, such as "Shawnee's Daily Deals," can only be used through our website and cannot be honored for mail-in orders. This is generally due to specific date or manufacturer requirements which cannot be imposed on mail-in orders. Please review the specific restrictions of the coupon to see if it can be applied to your mail-in order.

I saw a special deal / daily deal on the website. Can I put it on my mail-in order?

See coupon explanation above.

Why do you hold my order for 18 days when I pay by check?

Even with all this cool technology, not all banks are utilizing Check21, so checks can still require at least 18 days to clear. In a perfect world, this would not be so.

What's this NSF charge?

"Non-Sufficient Funds" means, in English, your check bounced. This is bad. We will charge you for this. There is a \$25 charge for all returned checks.

PAYMENT METHODS

Do you take Discover / VISA / MasterCard / American Express?

Yes to all. About the only plastic that we don't take are standard ATM and gasoline cards.

If I order using a credit card, when do you charge it?

Credit cards (by law in our state, actually) get charged only when the product actually ships. Unless there's some freaky deposit problem, that's the only time.

I'm an international customer.

What's with this extra data you need? With international mail and credit card fraud becoming a growing problem, we felt it was better to ask you for additional information rather than charge everyone outside the country a lot more for their stuff. For first-time orders only, we require a copy of some form of address verification which shows your address along with a photocopy of BOTH the FRONT AND BACK side of your credit card.

For security purposes you may black out one set of digits. Upon request, Right Stuf can provide a secure website location for our international customers to submit this information. This policy only affects first-time international customers; however, should your address or credit card information change, we will re-require this information in order to protect you and to update our records. This policy is in place to help keep credit card fraud to a minimum and

to ensure that our customers have the utmost security when ordering with our company. This information is destroyed after verification.

SHIPPING

How long does it take to ship an order?

From the time we receive the order and place it in our system, standard processing time to ship it is 24-48 hours. If some of the items are on back order, it can take an average of 10-14 business days for us to receive the back-ordered items. Then standard processing time goes into effect.

What are your methods of shipping?

Please see our order form for details and prices.

Are there more shipping options available?

Additional shipping options are available for orders placed by phone or through our online store (www.rightstuf.com).

How much is the shipping charge for prepacks / box sets?

Shipping is simple: use the amount for a SINGLE item.

Why did the cost of shipping increase?

While we've held our shipping rates steady since 2001, the cost of transportation and fuel has risen substantially over the course of the last seven years. So, we have adjusted our pricing accordingly based on the rates we receive from the various carriers. Please note, however, that our free shipping option has remained the same!

I'm not at home during the day.

Can you ship to my office?

Certainly (in fact, we prefer to do this to ensure that you actually get your order), but please give us all the information that you can, including the name of the company, so that your friendly delivery person can get your package to you. We require that you include the business' name in the address. We are happy to work with you to get the product to you as quickly as possible. Unfortunately for American Express cardholders, American Express' own restriction policies will not allow this. You could also choose to have the product shipped to you by mail instead. Please note: this policy applies only to our domestic customers; for international customers, we must ship to the billing address on your credit card.

I chose express delivery and my order still took 2 weeks to arrive. Why?

You must have ordered a product that we didn't have in stock at the time that we received your order. If an item is out of stock when we receive your order, we still ship it out by express delivery the moment we receive it from the manufacturer. Although we do keep significant stock on the items in our catalog, there are times when there may be delays getting items from the manufacturer, as discussed above.

What happens if my country will not allow me to have this sort of DVD / My order was seized by the border. What now?

Sorry. Please consult with the postal authorities of your country prior to placing an order for adult items. We will not be responsible for seized

shipments, and cannot provide refunds for seized products.

RETURNING MERCHANDISE

When I got my <insert title here>, it was bad. What do I do?

If your merchandise is defective due to a flaw in manufacturing, we are more than happy to replace the product. Unopened DVDs and VHS can be returned for Right Stuf store credit (or in the case of credit cards, refunded to the issuing card.) All returns/refunds must be processed within thirty (30) days of the date on your purchase invoice. If you need to complete a return/refund, please obtain a return authorization number from Customer Service at 800-338-6827 or visit our online request form at: www.rightstuf.com/requestform

Do I have to pay shipping to return a product?

Yes, but we will pay the shipping to send the replacement back to you. We suggest using the least expensive shipping method available. Should an item have accidentally been shipped to you which you did not order, we will reimburse your shipping costs to return the item to us.

The packaging said it would include

<special item>, but mine doesn't have it!

Unfortunately, we have no control over what the manufacturers decide to place inside of their products. Sometimes the manufacturers do provide special extras, but we cannot guarantee that these items will be inside of the products that we receive. However, should the item not be in your DVD, we would suggest that you contact the manufacturer directly. Of course, we are always happy to forward your request on for you!

PRODUCT INFORMATION

I saw this show that I think might have been Japanese Animation. Do you have it?

If you can give us enough information, someone can usually identify the program. Please understand, though, that if you ask us about something where "there's a girl who's like a magic user, a guy with a sword who has big hair, and a villain who wants to take over the universe, and I think there are some cat girls in it," there's a problem. This describes about half the films ever made. Also, knowing what a series or movie is doesn't mean that it's available in the US as a licensed product, but it could be.

Why isn't <title here> available in the US?

You might be surprised to find out how much anime is available in the US. Of the few titles that remain unlicensed, some titles have their rights disputed, some licensors want more money than a title can possibly generate in this market, and, of course, some are currently in negotiation. With the exception of a few TV series (which are a different matter entirely, due to their length), this just about covers it. We do not sell fan subs of non-licensed products or pirated copies of licensed titles.

Can I special order items that are not on the website?

Simply put: if it isn't on our website, we can't get it at the moment.

What are some good shows for children?

Although this is truly a matter of personal preference, we recommend Yugioh, Pokemon, Winx Club, Teenage Mutant Ninja Turtles, My Neighbor Totoro, Kiki's Delivery Service, Kimba, and Astro Boy for young anime fans. You might also consider the Sanrio titles like Hello Kitty. Look for the "ALL" age rating in item listings for child-friendly titles.

What's the most horrible, tasteless adult anime you offer?

That really depends largely on the person you ask. Some would say Cool Deceivers and Night Shift Nurses, others Love Doll and Bible Black. These titles are certainly not for the squeamish, and are most definitely only for adults. Look for them in the Adult portion of the catalog.

DVD SPECIFIC

What is Region Coding?

Region coding is a geographical restriction for DVDs and players that allow for licensing of specific materials within different areas, or Regions, of the world. Since DVD players are region specific, you need to make sure that the DVD you purchase is coded for the same region as your player.

What region is my DVD player?

If you purchased your player from a retail outlet in the US, it should be Region 1. You can check the Region coding on your DVD by looking for the Region Code symbol on either the screensaver or the packaging.

Region Coding List:

1. United States of America, Canada
2. Europe, including France, Greece, Turkey, Egypt, Arabia, Japan and South Africa
3. Korea, Thailand, Vietnam, Borneo and Indonesia
4. Australia and New Zealand, Mexico, the Caribbean, and South America
5. India, Africa, Russia and former USSR countries
6. People's Republic of China

What Region are your DVDs?

We primarily carry Region 1 Discs. However, we do have a small handful of DVD titles that are multi-region and even Region-free. We've tried to mark them where possible.

Why is THIS DVD better than THAT DVD?

Like many things, it's the talent of the people who did the mastering. Although the format supports a very high quality image, the preparation of the material determines how good the final will actually look.

Can my DVD play in a Playstation / Xbox / personal computer?

It depends on the DVD. There have been instances of some DVDs having difficulty playing in certain players. While the vast majority of DVDs will work just fine, we cannot guarantee all DVDs will play correctly on your Playstation, Xbox or personal computer.

JAPANESE FOR EVERYONE

Designed for classroom use as well as self-study, this book's objective

ちょっと待って! これを読んで下さい!! (WAIT! READ THIS!!)

So now you've done it. You're totally hooked on anime and manga and all you want is more, more, more! While you could wait for everything you need to finally get picked up for the States, you could also take the next step and learn Japanese yourself! To help you along on your quest, Right Stuff has created the section you see before you. We've gathered some of the top textbooks and learning aids to get you started along with many cultural books. Looking for something that you don't see here? Drop us a line and let us know what you're searching for!

Now, before you leap into this section, here are some notes on the Japanese language for total beginners:

Japan has three different sets of writing: hiragana (a syllabic alphabet usually used for native words), katakana (a syllabic alphabet usually used for foreign words), and kanji (symbols representing whole words/concepts). "Kana" refers to both hiragana and katakana. You'll want to start out learning kana, and then work your way up to kanji.

You've probably also heard the term romaji tossed around. Romaji is basically writing out Japanese words using the western ("Roman") alphabet. So while "dog" is "いぬ" in written Japanese, you may also see its romaji form of "inu" in Western textbooks.

The best way to get a true grasp on the language is to start with a series that focuses on hiragana and katakana, but some Westerners aren't as comfortable learning that way. For those of you who just want a quick jumpstart, you may want to check out the books that focus on romaji. We've tried to mark which style each book uses.

is to lead beginning students to the point where they can communicate effectively in practical, everyday encounters. It presents dialogues and expressions in Japanese together with useful cultural information, enabling students to use the language as a native speaker would in a variety of real-life situations. Focuses on kanji and kana over romaji.

Based on real-life people and events, You Higuri brings her signature style to the conspiracies of the Italian Renaissance, where drama is the norm and love should never be confused with passion.

GET FREE SHIPPING ON YOUR ORDER!!

If you live inside the US and your order exceeds \$49 (without freight) then Economy Shipping is FREE for domestic customers. If you live in Canada and your order exceeds \$150, our regular shipping is FREE!

SHIPMENTS TO MILITARY ADDRESSES & US PROTECTORATES

Our domestic standard rates are simple: in the US including APO (AA, AE, AP), FPO, PR, GU and VI please use the Domestic Shipping Options. Please be aware that if you have a PO Box, or are stationed in the service, our standard shipping is by mail because UPS will not deliver to these locations. If you live outside of the areas above, please use our International Shipping Options.

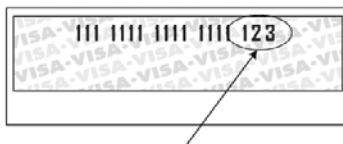

SPECIAL NOTES FOR OUR INTERNATIONAL CUSTOMERS

Shipping companies or local governments may charge an additional fee for taxes, or for delivering your package to a foreign country. Such fees and customs duties are not included in our shipping price and are your responsibility. We will not be responsible for seized shipments and cannot provide refunds for seized products. Please check to make sure you are in compliance with all local laws if you are ordering an adult product(s). For first-time orders only, we require a copy of some form of ID (can be drivers license, passport, credit card statement, utility bill, etc...) which shows your address along with a photocopy of BOTH THE FRONT AND BACK side of your credit card. For security purposes, you may black out one set of digits. This information is to help keep credit card fraud down and is for your protection as well. Upon request, Right Stuf can provide a secure website location for our international customers to submit this material. This information is destroyed after verification.

I'M RUNNING OUT OF FORMS!!

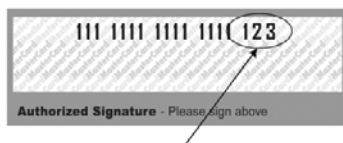

You are hereby authorized and deputized to make copies of this order form. As long as we can read it and all the information is there, you're fine. Copy away. You can also print one from our website at: <http://www.rightstuf.com/orderform>

WHAT IS MY SECURITY NUMBER?

SHIPPING INFO:

Please allow 2-6 weeks for delivery. It will almost certainly be closer to 2 than 6 weeks, but we like to err on the side of caution. Shipping confirmations are often via email to the address you provide.

If someone will not be available at your home, consider having the package shipped to your work address (include your company name). If your package is returned to us, we will charge you additional shipping to reship it.

Express shipping means that your order will be shipped via 2 Business Day UPS. Actual shipment time can vary based on whether the item(s) is in stock at the time we receive your order. If you need your order as soon as possible, please consider placing your order over the phone (800-338-6827) or through our secure online store (www.rightstuf.com)

Preorder release dates can (and often do) shift about without the manufacturer informing us. If you are concerned about your preorder status, please contact customer service at any time or check the latest information on product updates on our website (www.rightstuf.com).

For domestic orders: We may, at our option, ship your order in multiple shipments. Please note that in general, only shipments using the economy ship method will receive partial shipments. Due to increased transportation costs, orders shipping by other methods or internationally will be held until the order is complete. You may request a shipment of in-stock items on your order at any time by contacting customer service for an additional fee based on the ship method that you have chosen for the order.

PAYMENT METHODS:

We accept Checks and Money Orders in US funds. Sorry, no international checks. Please make all checks / money orders payable to Right Stuf, Inc. Because not all banks utilize Check21, all checks require at least 18 days to clear our bank. Sorry, no CODs.

We also accept the following payment methods: MasterCard, Visa, American Express, or Discover. Sorry, you can't use your Mom's Sears card ... or your Dad's BP card. For security purposes, we may contact you for additional information which may delay your order.

PLEASE DO NOT SEND CASH THROUGH THE MAIL!!

RETURN POLICY:

If your merchandise is defective due to a flaw in manufacturing, we are more than happy to replace the product. Unopened DVDs can be returned for Right Stuf store credit (or in the case of credit cards, refunded to the issuing card.) All returns/refunds must be processed within thirty (30) days of the date on your purchase invoice. If you need to complete a return/refund, please obtain a return authorization number from Customer Service at 800-338-6827 or visit our online request form at: <http://www.rightstuf.com/requestform>

Products returned without a return authorization number, or those more than thirty (30) days after the invoice date, will be returned to the customer.

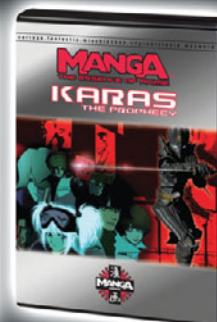

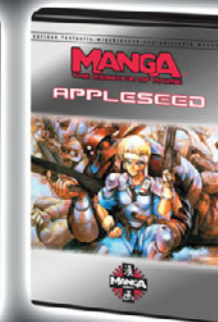

If the package was damaged while in transit (crushed box): if delivered by UPS, please contact UPS directly at (800) PICK UPS or if delivered by Mail, please contact your local postmaster.
